

PRODUCT CATALOGUE

ABOUT US

Hitek is a specialised oil blending company that produces technologically advanced high quality lubrication products. Hitek has been supplying the African market with lubrication oils for over 20 years targeting the agriculture, industrial, mining and automotive market in South Africa and Southern Africa. The company's customers span both private, public and government sectors with strong relationships and partnerships built up in the respective sectors.

The Hitek brand has made a profound mark in the lubrication industry and is now approved by major automotive companies such as Autobarn, Autozone, Midas, Motorcraft, Motor Parts, Redex and Holts-Ford Motor Corporation. Hitek products are guaranteed to perform as per the specifications of API, SAE, MIL and Asian manufacturers. Hitek have implemented a total quality management system and are currently in the process of being certified ISO 9001. It also has plans to implement other ISO systems around occupational health & safety (ISO 45001) and environment (ISO 14001) as well as the SABS approvals.

Hitek has invested heavily in research and technology as well as in human resources development to ensure it is at the forefront of the lubrication oil industry. The Hitek team are experts in their fields and highly trained. The management is very progressive and constantly striving to improve product value for the customers and provide a level of service that is beyond comparison.

Hitek abides by corporate governance principles and produces a set of audited financials on an annual basis for its shareholders. It is a fully empowered from a Broad-Based Black Economic Empowerment (Level 1) perspective and undertakes extensive social empowerment projects to give back to society. Hitek is a long standing member of the Progressive Business Forum (PBF)

This product catalogue contains the range and mix of our products and we hope you find it informative and useful. For any queries please contact our customer service desk.

ULTIMATE RACING PERFORMANCE

HEALTH, SAFETY & ENVIRONMENT:

Avoid skin contact with used oil. Wear suitable gloves. After contact with skin, wash immediately with soap & water. Do not pollute drains, soil or water with used oil. Protect the environment by disposing of used oil within the recommended environmental regulations. Keep out of reach of children. Do not swallow.

PRODUCT BENEFITS:

IMMEDIATE engine protection from low start up viscosity PETROL & DIESEL compatible engine oil
BETTER high temperature protection. COMPLETE engine protection, MAXIMUM wear protection
MINIMUM sludge formation and REDUCED piston deposits

MULTI-PURPOSE GREASE

High Performance Grease

Hitek grease is a lithium high performance grease. The excellent additive properties create structural stability and contains excellent resistance to water wash.

Hitek Multi purpose grease provides effective lubrication and maximum protection against heat, rust and corrosion.

PREMIUM
MOTOR CARE

ANTI-FREEZE

Glycol Meg Base - Red

Designed for use in all passenger vehicles, trucks and buses. A monoethylene glycol and anti corrosion agents that contain a blend of inhibitors designed to protect engines from freezing and also provides cooling assistance.

Hitek Anti-Freeze prevents scale and sludge build up, prevents rust and lubricates water pumps.

ANTI-FREEZE

Glycol Meg Base - Green

Designed for use in all passenger vehicles, trucks and buses. A monoethylene glycol and anti corrosion agents that contain a blend of inhibitors designed to protect engines from freezing and also provides cooling assistance.

Hitek Anti-Freeze prevents scale and sludge build up, prevents rust and lubricates water pumps.

CAR SHAMPOO

High Gloss

Hitek Car Shampoo is a high gloss specially formulated for frequent wash, which easily removes dirt and grime. Formulated for all types of vehicles.

TYRE SHINE

Silicone based

Hitek Tyre Shine is a smooth concentrated formula that delivers consistent even gloss. A silicon based product that provides a deep wet shine.

Hitek Tyre Shine is an advanced formula which helps protect against fading and cracking of the rubber surface

POWER CLEANERS

MEAN CLEANER

Multi Purpose Cleaner

A great all purpose surface degreaser. This product's formula quickly breaks down oil, grease, dirt and other grime. The cleaning action is ideal for most surfaces, be it for home or industrial use. It's strong enough to get rid of the toughest stains, yet gentle enough not to damage the surface itself. REMOVES GREASE & GRIME.

ENGINE CLEANER

Solvent Based (Blue)

Hitek Engine Based is an environmentally friendly cleaning solution with an effective cleaning power used in automotive and industrial applications. Designed for use in all passenger vehicles, trucks and buses.

A Solvent Based Engine Cleaner is a degreasing agent that removes grease, oils and other soil from the engine components.

ENGINE CLEANER

Water Based (Red)

Hitek Engine Cleaner Water Based is an environmentally friendly cleaning solution with an effective cleaning power used in automotive and industrial applications. Designed for use in all passenger vehicles, trucks and buses.

A Water Based Engine Cleaner is a degreasing agent that removes grease, oils and other soil from the engine components.

HAND CLEANER

with Grit

Hitek hand cleaner is a safe and easy to use hand cleaner, which effectively removes oil, grease, paints and grime. Hitek Hand cleaner is gentle but effective cleaner for frequent use.

HAND SANITISER

Waterless

Waterless Hand Sanitiser with a pharmaceutical grade provides a special protection against germs. It has a 70% alcohol concentration.

Also Available in 210 litre metal drums
& 20 litre Plastic bottles

ADVANCED LUBRICANT SOLUTIONS

Hitek is a specialised oil blending company. The primary objective of the company is to produce technologically advanced high quality products. Our mission is to create strong business relationships.

With the advent of the technology age SA is investing billions of Rands in infrastructure development, technological advancement and modern resources for industrial and commercial development.

The quality of products and services being produced in South Africa are world class and second to none. Numerous awards and accolades have been presented to companies. It is in this setting you will find Hitek Chemicals and Lubricants, the most advanced lubricants blending plant in the region. Although the company is only infantile the progress made has been phenomenal.

The Hitek brand has made a profound mark in the lubrication industry and approved by major automotive companies such as Autobarn, Autozone, Midas, Motorcraft, Motor Parts and Redex.

Hitek Chemicals and Lubricants has invested heavily in research and technology as well as in human resources development. The Hitek team are experts in their fields and highly trained. The management is very progressive and constantly striving to improve product value for their customers and provide a level of service that is beyond comparison.

Our products are guaranteed to perform as per the specifications of API, SAE, MIL and Asian manufactures. We hope you find this product catalogue informative and useful. In case you have an queries please contact our customer service desk.

LUX

LUBRICANTS

SAE 40 Engine Oil

Lubtek SAE 40 is a monograde motor oil which is compliant to all petrol and diesel engines specifying SF/CF 4 type performance.

Antiwear additives provides excellent wear protection. Protects engine against corrosion and promotes smooth engine performance

15W40 Diesel Oil

Lubtek 15w40 Super Turbo Diesel Oil is especially formulated for turbo diesel engines. Creates excellent thermal and oxidation stability, which reduces low temperature sludge build up and high temperature deposits.

Enhanced levels of film increases protection against engine scuffing and bore polishing. Engineered to provide outstanding wear protection under extreme conditions.

EP90 Gear Oil

Lubtek EP 90 GL4 Gear Oil is especially engineered for manual gearboxes of passenger cars and commercial vehicles.

Lubtek EP 90 GL4 Gear Oil is a premier blend with non-static and high performance additives which optimizes shift movements and provides superior protection against micropitting.

20W50 Multigrade Oil

Lubtek 20w50 Multigrade Oil, and aspirated and turbocharged oil for stroke, Compliant to petrol and diesel engines specifying 5J/CF4 type performance. Suitable for heavy duty diesel engines, agricultural/ construction industries

Lubtek 20w50 Multigrade Oil advanced technical formulations maximises energy against Oil oxidation and carbon deposits.

ATF Transmission Oil

Quality blended mineral oil optimized for the special requirements for automatic transmission of passenger cars and commercial vehicles.

Exceeds the performance requirements for transmission fluid applications. The anti-wear additive provides excellent lubricating properties and thermal degradation. Resists oxidation, provides temperature protection, and maintains its viscosity.

ANTI-FREEZE Glycol Meg Base

Designed for use in all passenger vehicles, trucks and buses. A monoethylene glycol and anti-corrosion agents that contain a blend of inhibitors designed to protect engines from freezing and also provides cooling assistance.

Lubtek Anti-freeze prevents scale and sludge build up, prevents rust and lubricates water pumps.
